HEALTH (Health Evangelism and Leadership Training for Him) is a four month certificate program specifically designed to produce effective health educators and coaches who will assist people to gain or maintain optimal physical, emotional, mental and spiritual health. Churches, schools, and professional offices can effectively use health outreach as the “entering wedge” of the gospel through a multiphase plan that closely tracks Ellen White’s counsel.

- A comprehensive four-month health evangelism leadership curriculum infused with practical experience and real world applications.

- Onsite work by teams of health evangelism specialists, complete training and materials for local churches.
- Exclusive online tools and resources, a turnkey public health outreach event, and permanent professional support by trained medical missionaries.
- An integrated leadership module where participants lead health evangelism teams.
- A program track tailored for licensed medical professionals desiring to incorporate health evangelism in their day-to-day practices and become health evangelism leaders in their churches and communities.
- This certificate program allows graduates to work in local churches as health evangelists and Bible workers, and competent leaders of ministry.

Weimar Institute:
Creating leaders of
significance who will,
through their work,
their research, their
talents and influence,
progress the work
of God and bless
humanity.

*"HEALTH was so much more
than I expected. As a result
of the daily exercise, I've
been empowered to do more
than I ever thought possible
physically. I now can lead and
encourage others to improve
their health as well."*

Margaret Bam

*"The HEALTH program helped
me gain the experience and
confidence I needed to share
these healing concepts literally
around the world."*

Cami Martin

The HEALTH Program gives participants an opportunity to:

- Work as a team member to assess the health needs of the community
- Educate and inspire others to live longer, stronger lives
- Deliver health education in an articulate and credible manner
- Understand and appreciate the mission and message of the Seventh-day Adventist church

- Interpret scientific studies that show the connection between religion and health
- Boldly but tactfully share the special truths that have been revealed to the Seventh-day Adventist church for this time
- Lead people through the book of Daniel and Revelation from a health perspective
- Organize Health Expos and assist in urban health events
