A B.S. Natural Science is a pre-professional degree designed to prepare students for further study in medicine, dentistry, physical therapy, physician assistant or graduate study (such as a Master's in Public Health), or to work for a healthcare or science organization.

- The Health Sciences Department exists to educate pre-health professional students in the knowledgeable application of God's natural laws of health. The program builds on the rich medical missionary heritage of the Seventh-day Adventist Church and strives to balance scientific study with applied learning.
- All classes taught from a biblical, creation-affirming basis

- Competent in creation/evolution issues and arguments
- Close, one-on-one interactions with program faculty
- Scientific study balanced with applied learning
- Opportunities in local, national, and international missions
- Highest rates of acceptance into U.S. medical schools
- Highest rates of publishing in the peer review literature
- Prepared for the MCAT/DAT or other pre-professional exams

Weimar Institute:
Creating leaders of
significance who will,
through their work,
their research, their
talents and influence,
progress the work
of God and bless
humanity.

*"I am constantly encountering
(in medical school) things that
I learned during my education
at Weimar, especially in the
clinical setting."*

*"The faculty and staff really
had the time to get to know
me on a personal level."*

*"The information and
experiences within the
classroom, NEWSTART clinical
rotations, and other Weimar-
related experiences are
invaluable."*

- Natural Science Program alumni

The Weimar Experience

The Health Sciences Department also trains students to serve in medical missionary work. In order to accomplish this, the department offers the traditional science courses needed by those preparing to serve in the medical field. In addition, students may take courses in natural healing remedies, diet and lifestyle-related health challenges, and practical training in health evangelism.

- Emphasis on comprehensive health and an understanding of nutritional and lifestyle therapy
- Follows Jesus' methods of teaching and healing

by blending practical health evangelism with the theoretical core sciences (chemistry, biology, and physics)

- National and international missions opportunities
- Involvement and clinical instruction in the NEWSTART™ Lifestyle Program and the Nedley Depression and Anxiety Recovery™ Program, with research opportunities leading to published abstracts in the peer reviewed literature
