The Weimar Institute Nursing program prepares nurses who are able to teach and promote principles which prevent disease. Students gain experience in hospitals, Weimar's NEWSTART™ Lifestyle Program, and the Nedley Depression and Anxiety Recovery™ program. Graduates will be effective medical missionary nurses who exemplify the caring ministry of Jesus Christ.

- Applying for ACEN Nursing Accreditation
- Opportunity to precept in an area of interest
- Health promotion/disease prevention emphasis for the whole person (body, mind, spirit)
- Graduates sought by employers because of unique preparation in health promotion

- Prepare for further education leading to advanced practice nursing and nursing education
- Access to high-paying jobs upon graduation from nursing school
- Bi-vocational options encouraged
- Experience in Total Community Involvement
- RN to BS Nursing program will be offered on only three days of the week to accommodate additional work as an RN during the program.

Weimar Institute:
Creating leaders of
significance who will,
through their work,
their research, their
talents and influence,
progress the work
of God and bless
humanity.

"I decided to take nursing at Weimar Institute because I saw that they were not training ordinary nurses, they were training missionary nurses. Our instructors share personal experiences from their work as missionaries, provide tips for witnessing to patients, and coordinate times to sing to our patients during clinical rotations. You'll be hard pressed to find a mission focus at this intensity at any other nursing school currently." Karl Rosaasen

The Weimar Experience

The RN to Bachelor of Science in Nursing (RN to BSN) Program may be completed in 12 months after licensure. The Nursing program consists of opportunities for mission nursing, community nursing and preceptorship in an area of interest. All required General Education classes are offered at Weimar and may be taken during the RN to BS Nursing Program.

Starting in August 2019, pending WSCUC Approval.

"The Nursing program offers cutting edge evidence based healthcare instruction to their students. I love the close relationship with my instructors. They are knowledgeable and available. I feel they are invested in seeing that we succeed. They go above and beyond in their roles. I love the setting - in the mountains. It is beautiful during all seasons of the year. It offers a place to learn and maintain your health while doing so." Linda Morgan
